If element 1 is removed from the requirements for GENERAL and/ or
EXTRA class license then all exams sohould be rewritten to include
digital mode exam items. Baud rate vs bandwith calculations and
rules. How about FSK, AFSK, PSK and other multi bit transmission
modes. How and why and size of stop bits. What is parity, and how
is it related to error detection. What ooher error detection methods
are available and which is used by each protocol.
Make the GENERAL and EXTRA class exam 50-100 questions.
